5. Some handy, or not handy hints!

When drilling into surfaces such as bathroom or kitchen tiles, the point of the drill can often slip. To help stop this happening, place a piece of sellotape or masking tape over the drill mark.

If you have alcohol or water marks on wooden furniture, you can remove by mixing white vinegar with olive oil in equal proportions. Use a cloth to wipe into the wood, do along the grain, polishing to finish off.

A mouse trap sat on the top of your alarm clock will prevent you from pressing the snooze button and falling back to sleep!

Always poo at work. Not only will you save money on toilet paper, but you'll be getting paid for it too!

Don't waste money buying binoculars, simply stand next to the object you wish to look at!

Have ants? Wipe down the effected area with a solution of half vinegar and half water to keep ants at bay.

Cut flowers will keep longer if they are kept in water containing a solution of one teaspoon of vinegar and one teaspoon of sugar made up with 570ml of hot water.

Clean Windows, mirrors & glass by adding 2 tablespoons of vinegar to the warm water. Buff with a clean dry cloth to finish off.

Got smelly drains? Boil 200ml (8floz) of vinegar and pour directly into the drain. Leave for ten minutes before using the drain.
